

Maths

Use non-standard measures to measure and begin to record lengths and heights.

Sequence events in chronological order.

Recognise and use language relating to dates, including days of the week, weeks, months and years.

Tell time to the hour and half past the hour.

Multiplication

Division

Position and direction

Science

Distinguish between an object and the material from which it is made.

Describe the simple physical properties of a variety of everyday materials

Knowledge of the world

Geography: We will be comparing where we live to that of Burkina Faso in Africa.

History: We will be looking at how transport has changed over time.

Worldview studies: We will be thinking about what our senses tell us about the world of religion and belief.

Willow class

Autumn 2 - 2021

Transport

Creative

We will be making a vehicle with moving wheels, starting to evaluate our work and look for ways to improve it. We will also be learning about primary colours.

PE

PE will be taught on Monday's and Tuesday's by Mrs Hovell and Mrs Harris. Please ensure your child comes to school in their PE kit on these days with long hair tied back and earrings removed.

Literacy

We will be looking at a number of books this half term including 'All aboard for the Bobo Road', and 'Emma Jane's Aeroplane' to support our transport topic.

We will continue to use our previously learnt phonics knowledge to write. Thinking about what makes a good sentence, remembering capital letters to start, finger spaces and a full stop at the end. We will also be thinking about whether our writing makes sense, saying it out loud before we start to write and checking what we have written.
